

July 29, 2005

I am writing to express my support for the No-Call bill to continue in full force and effect, I moved into a new residence and because of that I had to get a new phone number.

Within a few days I was getting 4 to 6 unwanted call a day from promoters and sales people who were for the most part rude and insensitive to my appeals to stop calling my home. Some of these marketers would call daily.

Do not allow this to happen again, if I need a product I'll find a vendor on my own.

I also support not allowing banks and credit card companies to call at will. If I need their services I can call them as needed.

Thank You,
